

day, see the idea?

Q Did you see him driving an automobile? A. Yes.

Q What kind of an automobile? A. Ford.

Q Did he drive it himself? A. Yes.

Q This was a Ford station wagon, or some other Ford?

A That station wagon.

Q Did you ever see him drive Mrs. Stevens's car? A. I saw him riding with Mrs. Stevens.

Q Riding with Mrs. Stevens? A. Yes.

Q Did you ever see him driving Mrs. Stevens's car?

A Never did. I could say absolutely that I never saw Mr. Stevens drive any other car but excepting his car, and that was the Ford. Here is something like that. I don't want to put in no more than what ought to go in. Here is something you ought to ask me that question, whether I ever saw a speedometer in his car, and I never did, because such a few Ford cars have it. But many a time I was in it. I rode in his Ford car probably from the time I was acquainted with Mr. Stevens. I called it an old car, which it was, a pretty rattley old thing. Then we had different business to do here and there. I appointed Mr. Stevens chairman of the water committee. He had more time than any of the rest, and I had confidence in Mr. Stevens, and therefore I knew that he had more leisure and so did I.
